EPCORN...always a STEP AHEAD

At EPCORN, we always ensure our clients have better services and products to manage PESTS.

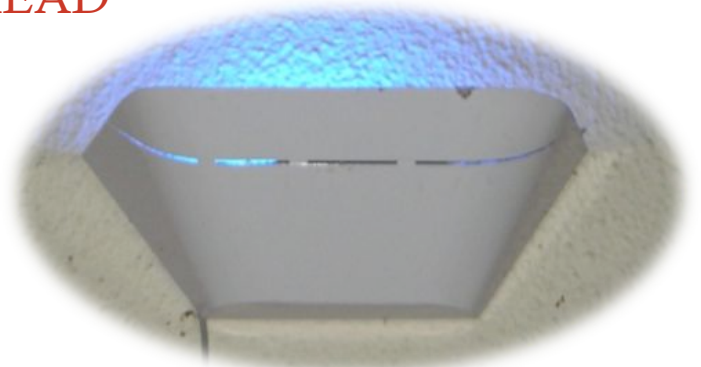

In a bid to stay a step ahead of the expectation we would like to introduce SNAPPER® a new product in insect management.

Use of **SNAPPER®**, allows better control than use of conventional insects killers, avoids insect burn odor, economical operation cost, easy maintainance, more effective.

SNAPPER® as shown in picture fits aesthetically well in a corporate pantry while being equally effective.

Its SINGLE CFL tube makes the operational cost lower than any other conventional product, equally the trap sheet is priced lower to give advantage on operational costs.

SNAPPER®, is a proven & preferred insect trapping devise for all FOOD & CORPORATE establishments.

- **NO VISUALS OF TRAPPED INSECTS.**
- **DISCREET & ASTHETIC**
- **KEEPS ALL INSECTS, FLIES TRAPPED INSIDE**
- **RELATIVELY SAFER**
- **ECONOMICAL MAINTAINANCE DUE TO SINGLE CFL**

FLYBAN ready to use spray

In locations where baits cannot be used, preferably spray happens to be the best approach to be adopted to bring a quick knockdown of flies.

FLYBAN SPRAY is an approved formulation and labeled for internal use. Safety and its ready to spray is its unique selling aspect.

SNAPPER®

A new product provided by EPCORN to fight the increasing menace of flies, mosquitoes.

FLYBAN bait for house flies

FLYBAN is a ready to use fly control product to be placed in open holders. The flies get attracted to the placed product and on feeding on the same quickly fall dead. Its instant control measure, ready to use approach is a unique aspect of the product.
